FEDERAL TRADE COMMISSION

REGULATORY MANUAL SERIES

Loose leaf, approximately 1,000 pages, 1979 edition. Supplemented annually. 2 volumes, \$95.00 plus \$2.00 postage and handling.

SUPPLEMENTED ANNUALLY

Stephanie W. Kanwit

The appeal of this Regulatory Manual is not just limited to attorneys with a specialty in the Federal Trade Commission, but is of interest to all of those many practitioners who come in contact with a federal regulatory agency and need details as to how one functions. Attorneys specializing in trade regulation, antitrust or consumer protection will find this to be a sourcebook of valuable information and insights to agency practice.

No other work so thoroughly discusses the historical evolution of §5 of the FTC Act into the powerful tool it is today, or discusses the

relationship between that Act and the antitrust laws - the Sherman and Clayton Acts.

The book is designed to be of practical help in dealing with a problem. It is not a theoretical essay on the agency, as so many past works have been, and it's detailed so that all relevant material is collected in one place. In addition, the topical outline is comprehensive enough that information on a problem should be easy to find. Finally, within the sections there are cross-references to other sections of the book and other sources, both at the FTC and elsewhere.

Please send the books checked below. My order includes future materials such as pocket parts, supplements, replacement pages, advance sheets and replacement, revised, recompiled or split volumes, future new editions and additional companion or related volumes. At any time, I will be free to cancel or change my order for upkeep services. Prices subject to change without notice.

Please send me Federal Trade Commission at the \$95.00 price plus \$2.00 postage & handling. Purchase includes my order for all future upkeep service.

Please notify me of availability of future upkeep service.

I would like to examine for 30 days without obligation.

IT'S COMPLETE. IT'S CONTEMPORARY. IT'S EASY TO USE.

Your practice deserves the law encyclopedia that cuts no corners in bringing you all the law.

Corpus Juris Secundum is the encyclopedia that is based on all reported case law in this country from 1658 to date. Its completeness is your strength.

Throughout its years of service to the legal profession, CJS has been constant in its response to the changing law. Not only do pocket parts keep it always current, but

new topics are added as circumstances demand—new volumes, new supplements keep it fresh and vital.

You can find the law you need quickly, even though CJS thoroughly covers 427 titles. Comprehensive indexing, including a 5-volume general index and individual title indexes, help you locate the area you

need. A section analysis precedes each title; black letter summary statements pinpoint each full statement of law. Footnote case citations are alphabetically arranged by state.

Add up these benefits—and many more—and you'll see why CJS is proclaimed as America's premiere law encyclopedia.
